3.2 Investment Objective

The Fund aims to provide capital growth and regular income* over the medium-to-long term by investing primarily in a portfolio of collective investment schemes.

Any material changes to the investment objective of the Fund would require Unit holders' approval.

3.3 Investment Policy, Strategy and Asset Allocation

The investment strategy of the Fund is to invest in listed and/or unlisted collective investment schemes that provide capital growth and regular income through exposure into globally focused strategies across multiple asset classes.

To build a well-diversified portfolio, the selection of collective investment schemes will be based on asset class and geographical focus that perform differently at various market cycles. Dividend yield of the collective investment schemes will also be considered in the selection process.

Note:

* Income distributed (if any) will be reinvested into additional Units unless Unit holders opt for the distribution to be paid out.

The Manager will take an active investment strategy in determining the optimal asset and geographical allocation, and will have the flexibility to actively rebalance the asset and geographical allocation should it deem necessary based on the prevailing market conditions and opportunities.

The Fund's investment in derivatives is for hedging purposes only.

Asset allocation

- a maximum of 98% of the Fund's NAV will be invested in collective investment schemes; and
- a maximum of 30% of the Fund's NAV will be held in liquid assets which include money market instruments and deposits with financial institutions.

Temporary defensive strategy

The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy by reducing its investment in collective investment schemes and raise liquidity levels of the Fund to protect the Unit holders' interest during adverse market conditions that could negatively impact the financial markets.

3.4 Risks Factors

3.4.1 General Risks

Prospective Sophisticated Investors should consider the following general risks of investing in the Fund in addition to the other information set out in this Information Memorandum:

- **Market risk**
Market risk refers to the potential losses that may arise from adverse changes in the market prices of the investments of the Fund. The value of the investments that the Fund invests in may fluctuate in response to market developments (such as adverse changes in government regulations and policies, economic developments, investor sentiment, inflation, interest rates and exchange rates), which would then affect the Fund's NAV per Unit.
- **Fund Management risk**
The performance of the Fund is dependent on the experience, knowledge, expertise and investment strategies adopted by the personnel of the Manager. Lack of experience, knowledge and expertise, as well as poor execution of the investment strategy or general management of the Fund may jeopardise the Unit holders' capital and returns. In view of this, proper training and stringent selection of personnel to manage the Fund is crucial towards mitigating this risk.
- **Inflation/Purchasing power risk**
This refers to the likelihood that a Unit holder's investments are not growing at a rate equal or greater than the inflation rate, thus resulting in the Unit holder's decreasing purchasing power.
- **Loan financing risk**
The risk occurs when Unit holders take a loan/financing to finance their investment. The inherent risk of investing with borrowed money includes Unit holders being unable to service the loan repayments. In the event Units are used as collateral, Unit holders may be required to top-up their existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan.
- **Non-compliance risk**
This is the risk where the Manager does not comply with the provisions as set out in the Deed; or the laws/guidelines that govern the Fund; or its internal procedures and policies. The non-compliance could be due to several factors such as a result of human errors and oversight, system failures or fraudulent acts by the Manager.

Any non-compliance may adversely affect the Fund's NAV per Unit, especially in situations where the Manager is forced to sell the investments of the Fund at unfavourable prices to resolve the non-compliance. The Manager has imposed stringent internal compliance controls to mitigate this risk.

3.4.2 Specific Risks

In addition, there are also specific risks associated with the investment portfolio of the Fund. The specific risks include but are not limited to the following:

- **Third Party Managers' risk**

As a fund-of-funds, the Fund invests into collective investment schemes which are managed by third party managers. The Manager has no control over the investment strategies, methodologies, knowledge, operational controls, compliance and management of the collective investment schemes. Poor management or mismanagement by the third party managers will jeopardise the value of the Fund's investment in the collective investment schemes and as a result, the NAV of the Fund will be adversely affected.

- **Collective Investment Scheme risk**

Any adverse effect on the collective investment schemes which the Fund is investing in will impact the NAV of the Fund. For example, the respective collective investment schemes may underperform its benchmarks due to poor market conditions and as a result, the NAV of the Fund will be adversely affected as the performance of the Fund is dependent on the performance of the respective collective investment schemes. The Fund will invest in globally focused strategies across multiple asset classes which will carry the following risks:

- Equity risk

The buying and selling of equity carry a number of risks, especially the general insolvency risk associated with the issuers of equities. The value of equities investment depends on, but not limited to, its earning potential, sound management, treatment of minority shareholders and other factors. Failure to achieve the expected earnings may cause declining equities value.

- Credit risk

Credit risk relates to the creditworthiness of the issuers of the debt securities and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may affect the value as well as liquidity of the debt securities. In the case of rated debt securities, this may lead to a credit rating downgrade.

- Interest Rate risk

This risk refers to the impact of interest rate changes on the valuation of debt securities or money market instruments. When interest rate rise, the prices of debt securities or money market instruments generally decline and this may lower the market value of the debt securities or money market instruments. The reverse may apply when interest rates fall.

- **Counterparty risk**

The Fund's investments in money market instruments or placements of deposits with financial institutions are subject to the risk of the counterparty. Counterparty risk refers to the possibility that the financial institutions being unable to make timely payments of interest and/or principal payment on the maturity date. This may then lead to a default in the payment and/or interest and ultimately, affect the NAV per Unit of the Fund. To mitigate this risk, the Manager will ascertain the creditworthiness of the financial institutions through a rigorous and disciplined credit research and analysis before prior to its investments.

- **Currency risk**

The Fund can invest in non-RM denominated share classes of the Underlying Funds, while the base currency of the Fund is RM. Any fluctuations in the currency exchange rates can affect the value of the Fund's investment in the Underlying Funds when it is converted back to the Fund's base currency, and subsequently affect the Fund's NAV per Unit. Unit holders should be aware that if foreign currency depreciates against the base currency, this will have an adverse effect on the NAV of the Fund in the base currency and vice versa. Unit holders should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

- **Liquidity risk**

This is defined as the ease with which the Fund's investment in the Underlying Funds can be sold at or near its fair value depending on the trading volume of that Underlying Funds in the market. This risk may increase when the Fund has unexpected significant redemption by Unit holders.

While the Fund will hold adequate liquid assets under normal circumstances the Fund may need to liquidate a portion of its investment in the Underlying Funds in the event of significant redemptions. Unit holders need to be aware that there is no secondary market for Underlying Funds that are unlisted. Investments in unlisted Underlying Funds can only be liquidated with the manager of the respective Underlying Fund or its appointed agents. The value at which the Fund's investment is liquidated is also dependent on the valuation of the Underlying Funds at the point of liquidation, which could be unfavourable due to market conditions.

Furthermore, it might take longer for the Fund to receive the proceeds from the liquidation of its investment in the Underlying Funds if the payment from the manager of the Underlying Funds or its appointed agents is delayed. Consequently, redemption proceeds to Unit holders who redeemed their Units might be delayed.

- **Country risk**

As the Underlying Funds may be domiciled in foreign countries, the Fund's investment in these Underlying Funds is subject to country risk. It may be adversely affected by political instability as well as exchange controls, changes in taxation, foreign investment policies, restrictions on repatriation of investments and other restrictions and controls which may be imposed by the relevant authorities in those countries. In the event any of such events were to materialise, it may adversely affect the value of the Fund's investment in the Underlying Funds. This in turn may cause the NAV of the Fund to fall.

- **Hedging risk**

The Manager has the flexibility to hedge particularly the foreign currency exposure at the RM class level by using derivatives. Foreign currency hedging has the potential to mitigate adverse foreign currency fluctuations but may not completely eliminate all currency risk. Hedging involves costs, which reduce investment performance of the Fund.

- **Concentration risk**

When the Fund invests a large portion of its assets in a limited number of collective investment schemes or within a limited geographical area or is concentrated in a particular country, region, or sector, its performance may be more affected by any political, economic, environmental or market conditions within that area.

<p>SOPHISTICATED INVESTORS SHOULD TAKE NOTE THAT THE ABOVE LIST OF RISKS MAY NOT BE EXHAUSTIVE AND IF NECESSARY, THEY SHOULD CONSULT THEIR ADVISER(S) FOR A BETTER UNDERSTANDING OF THE RISKS.</p>

3.5 Risk Management Strategies

The risk management strategies undertaken by the Manager include but are not limited to the following:

- Adhering to the Fund's investment objective, investment strategies and investment limit and restrictions as stated in the Information Memorandum and/or Deed;
- Monitoring and evaluating the market and economic conditions;
- Determining and monitoring effective diversification of exposures in the Underlying Funds across markets, asset classes and securities;
- Constant monitoring of relevant markets and effective diversification of exposures in the Underlying Funds across markets, asset classes and securities;
- Practice prudent liquidity management to ensure that the Fund maintains reasonable levels of liquidity to meet any redemption request;
- Regular review of the Fund's performance; and
- Escalating and reporting investment matters to the Investment Committee.

3.6 Distribution Policy

The Fund intends to provide regular income. As such, income distribution will be declared on a monthly basis, subject to availability of income. Income distributed will be reinvested into additional Units unless Unit holders opt for the distribution to be paid out.

3.7 Performance Benchmark

The performance benchmark of the Fund is 50% MSCI All Country World Index + 50% Bloomberg Barclays Global Aggregate Total Return Index Hedged USD, in RM terms.

The Fund is managed without reference to the benchmark. The benchmark is used solely as a reference only.

The performance of the Fund against the benchmark is published in the Manager's quarterly fund performance review publication and is available from the Manager's office upon request.

3.8 Permitted Investments

The Fund may invest in any of the following investments:

- Collective investment schemes, including exchange-traded funds (ETFs) and real estate investment trusts (REITs);
- Money market instruments and deposits with financial institutions;
- Derivatives for hedging purposes only; and
- Any other investments as may be agreed upon by the Trustee and Manager from time to time.

- are seeking capital growth over a medium-to-long term investment horizon;
- are seeking regular income* stream; and
- are willing to assume a moderate to higher risk in their investments to obtain potentially higher returns.

*Income distributed (if any) will be reinvested into additional Units unless Unit holders opt for the distribution to be paid out.

4. FEES, CHARGES AND EXPENSES

4.1 Charges Directly Incurred On Sale and Redemption of Units:

4.1.1 Sales Charge[^]

A sales charge is a front-end fee incurred by a Unit holder when the Unit holder purchases Units of the Fund. The Manager uses the sales charge to pay marketing, advertising and distribution expenses of the Fund. The Manager imposes a sales charge of up to 5.00% of the Fund's NAV per Unit. Sales charge is rounded to the nearest two (2) decimal places.

Illustration on how sales charge is calculated

Assuming a Sophisticated Investor makes an investment of RM10,000 on 10 February 2020 and that the NAV per Unit for the Fund at the end of the Business Day on 10 February 2020 is RM1.0000. If the sales charge is 5.00%, then the computation of the sales charge will be as follows:-

$$\begin{aligned}\text{Sales charge} &= \text{Sales charge} \times \text{amount invested} \\ &= 5.00\% \times \text{RM}10,000 \\ &= \text{RM}500\end{aligned}$$

4.1.2. Redemption Charge[^]

A redemption charge may be incurred by a Unit holder when the Unit holder redeems Units in the Fund. A redemption charge (if any) is levied upon the redemption proceeds and rounded to the nearest two (2) decimal places.

There is NO redemption charge imposed by the Manager for redemption of Units for this Fund.

4.2 Fees Indirectly Incurred On Sale and Redemption of Units:

4.2.1 Annual Management Fee[^]

The annual management fee is up to 1.80% per annum of the Fund's NAV calculated and accrued on a daily basis before deducting the Manager's fee and Trustee's fee for that day.

There will be no double charging of annual management fees.

4.2.2 Annual Trustee Fee[^]

The annual trustee fee is calculated and accrued on a daily basis based on the NAV of the Fund at the rate of up to 0.04% per annum of the Fund's NAV, subject to a minimum of RM12,000 per annum (excluding foreign custodian fees and charges).

4.2.3 Switching Fee[^]

There is no switching fee imposed on switching of Funds.

4.2.4 Transfer Fee[^]

A transfer fee may be imposed on Unit holders who transfer, either fully or partially, the Units registered in their names to other persons. However, the Manager has waived the transfer fee for this Fund. Please refer to section 5.7 for further details on transfer of units.

4.3 Fund Expenses[^]

The other fund expenses are custodian fee (for funds with foreign investments) (if any), brokerage fee (if any), the Auditor's fees and other relevant professional fees such as validation and regulatory reporting on common reporting standard ("CRS"), foreign account tax compliance act ("FATCA"), distribution of statements of investment, quarterly and annual reports, tax vouchers, distribution warrants and other notices to Unit holders as well as expenses that are directly related and necessary to the business of the Fund as set out in the Deed. These fund expenses may be paid out of the Fund.

4.4 Rebates and Soft Commissions

The Manager, fund manager, trustee or trustee's delegate will not retain any rebate from, or otherwise share in any commission with, any broker/dealer in consideration for directing dealings in the investments of the Fund. Derivatives – The valuation of derivatives is marked to market on a daily basis using valuation prices quoted by the counterparty of derivatives. The Manager will verify the reasonableness of the prices of the derivatives provided by the counterparty via an in-house verification procedure which is in place to ensure reasonable valuation of the derivatives. It shall be valued at fair value, as determined in good faith by the Manager on the methods or bases which have been verified by the Auditor and approved by the Trustee.

5.2 Fund Valuation and Publication of Prices

The NAV per Unit is quoted on a Forward Price basis and can be obtained via online portal of The Star and New Straits Times and/or the Manager's website at www.hlam.com.my.

The valuation of the Fund is conducted on each Business Day at the close of the Bursa Malaysia. However, for this Fund with investments in foreign markets, due to time zone differences in these markets, the valuation point can only be carried out after the close of all foreign markets but not later than 5.00 pm on the next Business Day in which the portfolio of the Fund is invested. Thus, the NAV per Unit of this Fund will not be published on the next Business Day but instead will be published on the next following Business Day (i.e. the prices will be two Business Days old).

The following table illustrates the process flow of obtaining prices for the Fund.

Investors should note that the Manager does not accept responsibility for any errors on the part of the publisher on the prices published daily in various major newspapers (if any), or for any non-publication of prices by such publisher and shall incur no liability in respect of any action taken or loss suffered by Unit holders in reliance upon such publications.

5.3 Pricing Policy

The Manager adopts a Single Pricing policy to price Units in relation to the purchase and redemption of Units. Hence, the purchase and redemption of Units will be carried out at a single price (i.e. NAV per Unit). The sales charge and redemption charge (if any) will be calculated separately based on your investment or redemption amount.

5.4 Unit Pricing

The Selling Price and Redemption Price of the Fund are calculated based on the NAV per Unit at the next valuation point after the application to purchase or redeem Units is received by the Manager, i.e. Forward Price.

Determination of the NAV per Unit

The NAV per Unit of the Fund is determined on each Business Day by dividing the value of the Fund's assets less its liabilities, (i.e. NAV), by the number of UIC at the same valuation point and rounded to 4 decimal places.

$$\text{NAV per Unit} = \frac{\text{Assets} - \text{Liabilities}}{\text{UIC}}$$

Illustration: Computation of NAV per Unit

The following illustration is based on the assumption that the Fund invests in collective investment schemes, money market instruments and deposits. It is also assumed that the UIC are 100,000,000 Units.

Figures and examples are meant for illustration purposes only.

Assets	RM
Collective Investment Schemes	90,000,000
Money market instruments	8,000,000
Deposits	5,000,000
	<hr/>
	103,000,000
<i>Less: Liabilities</i>	<i>(3,000,000)</i>
	<hr/>
NAV	100,000,000

$$\begin{aligned} \text{NAV per Unit} &= \text{NAV/UIC} \\ &= \frac{100,000,000}{100,000,000} \\ &= \text{RM1.0000 (rounded to 4 decimal places)} \end{aligned}$$

5.5 Purchase of Units

(a) Calculation on sales charge and Units

The Selling Price of the Fund is calculated based on the NAV per Unit at the next valuation point after the application for the purchase of Units is received by the Manager on a Business Day, i.e. Forward Price. The sales charge levied upon the purchase of Units by Unit holders is up to 5.00% of the Fund's NAV per unit.

Illustration: Calculation on sales charge and Units

Assuming the NAV per Unit at the end of the Business Day of 10 February 2020 is RM1.0000 and the sales charge is 5%, when an investor makes an investment of RM10,000 in HLGMSF, then the total amount to be paid by an investor is illustrated as follows:

Investment amount	=	RM10,000
Sales charge	=	Sales charge rate x amount invested
	=	5% x RM10,000
	=	RM500
Total amount to be paid by investor	=	Amount invested + Sales charge
	=	RM10,000 + RM500
	=	RM10,500

Therefore, the number of Units credited to the above investor's investment account are (expressed in 2 decimal places):

$$\frac{\text{Amount invested}}{\text{NAV per Unit}} = \frac{\text{RM10,000}}{\text{RM1.0000}} = 10,000 \text{ Units}$$

(b) Minimum initial and additional investment

The minimum initial investment amount is RM10,000 or such other lower amount as the Manager may in its sole discretion allow. The minimum additional investment amount is RM1,000 or such other lower amount as the Manager may in its sole discretion allow.

There is no restriction on the frequency of investments into the Fund.

5.6 Redemption of Units

(a) Calculation and payment of redemption proceeds

The Redemption Price of the Fund is calculated based on the NAV per Unit at the next valuation point after the request for redemption of the Units is received by the Manager on a Business Day, i.e. Forward Price. The Manager does not impose a redemption charge on the redemption of Units for the Fund.

Illustration: Calculation on net redemption proceeds

Assuming an investor intends to redeem 10,000 Units from the Fund and that the NAV per Unit is RM1.0000, then the redemption proceeds that the investor will receive is as follows:

Redemption proceeds	=	Units redeemed x NAV per Unit
	=	10,000 Units x RM1.0000
	=	RM10,000
Redemption proceeds	=	RM10,000
Less redemption charge	=	Nil
Net redemption proceeds to be paid to investor	=	RM10,000

(b) Minimum redemption of Units

The minimum redemption of Units is 1,000 Units or such other lower amount as the Manager may in its sole discretion allow. The minimum requirement applies unless you are redeeming your entire investments holdings in the Fund.

Partial or full redemption can be made by completing a "Form of Request for Redemption" and by submitting it through the nearest Manager's head office, its branches or sales agents. The Unit holder shall not be entitled to partially redeem his holdings in the Fund if it reduces the remaining account balance of the Fund to an amount which is lower than the Fund's stipulated minimum account balance. In such circumstances, the Manager may in its sole discretion effect a full redemption on the entire account and inform the Unit holder thereafter. There is no restriction on the frequency of redemption of Units, subject to the minimum account balance. Please refer to section 5.9 – Minimum Account Balance for more information.

In the case where Units are in the names of more than one Unit holder, the mode of holding will be specified as a "Joint Application" and redemption requests will have to be signed by all the joint holders. However, in the case where the mode of holdings is specified as "Either Applicant to Sign", it is not necessary for all joint holders to make the redemption request and any person who is registered as a joint holder in the Fund will be allowed to make redemption request for the Fund. In all cases, redemption proceeds will be paid only to the first-named joint holder in the Fund's register (unless

the Unit holder specifies otherwise in the “Form of Request for Redemption”). Payment cannot be made to bank accounts in the name of third parties.

(c) Payment of Redemption Proceeds

Redemption proceeds will be paid within ten (10) calendar days upon receipt of the duly completed redemption request by the Manager. In the event of unforeseen circumstances, the Manager reserves the right to extend the payment of redemption proceeds by an additional ten (10) calendar days.

(d) Suspension of Redemptions

Where the Trustee considers that it is not in the interests of the Unit holders to permit the assets of the Fund to be sold or that the assets cannot be liquidated at an appropriate price or on adequate terms, the Trustee shall suspend the redemption of Units and immediately call a Unit holders' meeting to decide on the next course of action.

The Trustee may also suspend the redemption of Units in exceptional circumstances when there is good and sufficient reason to do so having regard to the interests of the Unit holders.

All suspended requests for redemption shall be deemed to have been received on the first Business Day after the lifting of the suspension provided always that the Manager may permit a withdrawal of such requests at any time after the commencement of suspension and before the lifting of the suspension.

5.7 Transfer of Units

A Unit holder (the transferor) may transfer Units held in the Fund to another person (the transferee), who must qualify as a Sophisticated Investor and satisfy the entry requirements of the Manager.

The transfer must be made in terms of Units and not in terms of RM. The minimum transfer amount is 10,000 units or such other lower amount as the Manager may in its sole discretion allow. Where partial transfer of Units is made, the transferor must maintain and the transferee must meet the minimum holdings* of Units. In the event the minimum holdings* of Units is not met by either the transferor or transferee, the Manager reserves the right to reject any transfer request.

To effect a transfer, both the transferor and transferee are required to complete a “Transfer Form”. Additionally, if the transferee is a new investor, the “Account Opening Form” must be completed.

*Please refer to section 5.9 – Minimum Account Balance for more information.

5.8 Fund Switching

Switching is a facility offered by the Manager to its existing Unit holders. This facility enables Unit holder to switch from units of one fund to units of other fund(s) managed by the Manager. However the Manager has the discretion to allow or to reject any switching-in or switching-out of the Fund if it is deemed disruptive to fund management or contrary to the best interest of the fund and/or Unit holders.

5.9 Minimum Account Balance

The minimum balance of Units that must be retained in a Unit holder's account is 5,000 Units or such other lower amount as the Manager may in its sole discretion allow. If the Units in the Unit holder's account fall below this minimum account balance due to transfer or switching, the Manager reserves the right to reject the transfer or switching request and will notify the Unit holder accordingly.

Where the Units in the Unit holder's account fall below the minimum account balance due to redemption, the Manager will effect a full redemption of Units in the account and inform the Unit holder thereafter.

5.10 Incorrect Pricing

Subject to any relevant laws, if there is an error in the pricing of the NAV per Unit of the Fund, the Manager will take immediate remedial action to correct the error. Rectification shall extend to the reimbursement of money as follows if the error is at or above the significant threshold of 0.5% of the Fund's NAV per Unit;

- (a) if there is an over pricing in relation to the purchase and creation of Units, the Fund shall reimburse the Unit holder;
- (b) if there is an over pricing in relation to the redemption of Units, the Manager shall reimburse the Fund;
- (c) If there is an under pricing in relation to the purchase and creation of Units, the Manager shall reimburse the Fund; or
- (d) if there is an under pricing in relation to the redemption of Units, the Fund shall reimburse the Unit holder or former Unit holder.

The Manager retains the discretion whether or not to reimburse if the error is below 0.5% of the NAV per Unit or where the total impact on an individual account is less than RM10.00 in absolute amount. This is because the reprocessing costs may be greater than the amount of the adjustment.

4. AMENDMENTS TO SECTION 3.4.2: Specific Risks

The information in relation to the “Liquidity risk” disclosed in pages 16 to 17 of the Information Memorandum dated 20 March 2020 is hereby deleted in its entirety and substituted with the following:

- **Liquidity risk**

Liquidity risk comprises two broad risk types: Market Liquidity Risk and Funding Liquidity Risk. Market Liquidity Risk is defined as the ease with which a security can be sold at or near its fair value depending on the trading volume of that security in the market. If the Fund holds a large portfolio of securities that are less liquid, these securities may have to be sold at unfavourable prices and/or withdraw deposits placed with financial institutions prior to maturity which would expose the Fund to a higher degree of market liquidity risk. As such, any premature withdrawal of deposits where interest income may be forfeited or forced sale of the Fund’s investment to meet any shortfall will have adverse impact on the Fund’s NAV per Unit and subsequently the value of Unit holders’ investments in the Fund.

Funding Liquidity Risk is defined as the risk that the Fund will not be able to meet efficiently both the expected and unexpected current and future cash outflow. The risk primarily involves the Fund’s inability to meet redemption requests without major distortion to the portfolio allocation.

To mitigate this risk, the Manager will employ prudent liquidity management such as cash flow and redemption monitoring to ensure that the Fund maintains reasonable levels of liquidity to meet any redemption request supplemented by a temporary defensive strategy should adverse conditions prevail. The Manager will apply Liquidity Risk Management tools inclusive of Liquidity Stress Test to assess the Fund’s viability to meet expected and unexpected redemptions under adverse scenarios.

The Manager may, in consultation with the Trustee, suspend dealing in Units under exceptional circumstances where there is sufficient reason to do so having regard to the interests of the Unit holders in an effort to further curtail the liquidity risk experienced by the Fund. Exceptional circumstances can be considered where the market value or fair value of a material portion of the Fund’s assets cannot be determined.

This 3rd Supplementary Information Memorandum is supplementary to and has to be read in conjunction with the Information Memorandum dated 20 March 2020, the 1st Supplementary Information Memorandum dated 31 December 2020 and the 2nd Supplementary Information Memorandum dated 27 October 2021.

5. AMENDMENTS TO SECTION 3.5: Risk Management Strategies

The information in relation to the “Risk Management Strategies” disclosed in page 17 of the Information Memorandum dated 20 March 2020 is hereby deleted in its entirety and substituted with the following:

The risk management strategies undertaken by the Manager include but are not limited to the following:

- Adhering to the Fund’s investment objective, investment strategies and investment limits and restrictions as stated in the Information Memorandum and/or Deed;
- Monitoring and evaluating the market and economic conditions;
- Determining and monitoring effective diversification of exposures in the Underlying Funds across markets, asset classes and securities;
- Constant monitoring of relevant markets and effective diversification of exposures in the Underlying Funds across markets, asset classes and securities;
- Practice prudent liquidity management to ensure that the Fund maintains reasonable levels of liquidity to meet any redemption request;
(Please refer to ‘Liquidity risk’ in section 3.4.2 of this Information Memorandum for more details)
- Regular review of the Fund’s performance; and
- Escalating and reporting investment matters to the Investment Committee.

6. AMENDMENTS TO SECTION 3.6: Distribution Policy

The information in relation to the “Distribution Policy” disclosed in page 18 of the Information Memorandum dated 20 March 2020 is hereby deleted in its entirety and substituted with the following:

The Fund intends to provide regular income. As such, income distribution will be declared on a monthly basis, subject to availability of income. Income distributed will be reinvested into additional Units unless Unit holders opt for the distribution to be paid out.

The Manager’s current intention is to declare distributions out of the income and/or capital* of the Fund after deducting fees and expenses incurred by the Fund. Income distribution may be declared out of capital* if the Fund does not have sufficient net realized gains or net realized income from the current financial year. The rationale for providing for payment of distribution out of capital* is to allow for the ability to provide a stable and consistent level of distribution to Unit holders. Distribution out of capital* carries the risk of eroding the capital of the Fund and as a result the value of future returns may be diminished.

Note:

* *Capital refers to unrealised income or unrealised gain.*

7. AMENDMENTS TO SECTION 4.2.1: Annual Management Fee^

The information in relation to the “Annual Management Fee^” disclosed in page 19 of the Information Memorandum dated 20 March 2020 and page 3 of the 1st Supplementary Information Memorandum dated 31 December 2020 is hereby deleted in its entirety and substituted with the following:

4.2.1 Annual Management Fee^

The annual management fee is up to 2.00% per annum of the Fund’s NAV calculated and accrued on a daily basis before deducting the management fee and trustee fee for that day.

This 3rd Supplementary Information Memorandum is supplementary to and has to be read in conjunction with the Information Memorandum dated 20 March 2020, the 1st Supplementary Information Memorandum dated 31 December 2020 and the 2nd Supplementary Information Memorandum dated 27 October 2021.

Example:

Assuming the daily NAV of the Class before deduction of management fee and trustee fee at the valuation point for one particular valuation day is RM90,000,000, then the management fee for that particular valuation day is calculated as below:-

$$\frac{\text{RM90,000,000} \times 2.00\%}{365 \text{ days}^*} = \text{RM4,931.51 (daily)}$$

Therefore, total management fee for the Class for that particular valuation day
= RM4,931.51

* Note: In the event of leap year, the annual management fee will be divided by 366 days.

Note:

^ All fees and charges and/or sum set out in this Information Memorandum payable to the Manager/Trustee are subject to any applicable taxes and/or duties and at such rate as may be imposed by the government from time to time. The Manager/Trustee (where applicable) shall have the right to charge and recover from the Fund any applicable taxes and/or duties now or hereafter imposed by law or required to be paid in connection with the products or services provided by the Manager/Trustee (where applicable).

8. AMENDMENTS TO SECTION 4.2.2: Annual Trustee Fee^

The information in relation to the “Annual Trustee Fee^” disclosed in page 20 of the Information Memorandum dated 20 March 2020 and page 3 of the 1st Supplementary Information Memorandum dated 31 December 2020 is hereby deleted in its entirety and substituted with the following:

4.2.2 Annual Trustee Fee^

The annual trustee fee is calculated and accrued on a daily basis based on the NAV of the Fund at the rate of up to 0.04% per annum of the Fund’s NAV, subject to a minimum of RM12,000 per annum (excluding foreign custodian fees and charges).

Example:

Assuming the daily NAV of the Fund before deduction of management fee and trustee fee at the valuation point for one particular valuation day is RM90,000,000, then the trustee fee for that particular valuation day is calculated as below:-

$$\frac{\text{RM90,000,000} \times 0.04\%}{365 \text{ days}^*} = \text{RM98.63 (daily)}$$

Therefore, total trustee fee for that particular valuation day
= RM98.63

* Note: In the event of leap year, the annual trustee fee will be divided by 366 days.

Note:

^ All fees and charges and/or sum set out in this Information Memorandum payable to the Manager/Trustee are subject to any applicable taxes and/or duties and at such rate as may be imposed by the government from time to time. The Manager/Trustee (where applicable) shall have the right to charge and recover from the Fund any applicable taxes and/or duties now or hereafter imposed by law or required to be paid in connection with the products or services provided by the Manager/Trustee (where applicable).

This 3rd Supplementary Information Memorandum is supplementary to and has to be read in conjunction with the Information Memorandum dated 20 March 2020, the 1st Supplementary Information Memorandum dated 31 December 2020 and the 2nd Supplementary Information Memorandum dated 27 October 2021.

Accordingly, any rebate or shared commission will be directed to the account of the Fund.

Notwithstanding the aforesaid, the Manager or the fund manager may retain goods and services by way of soft commissions provided always that (i) the goods and services bring direct benefit or advantage to the management of the Fund and may include research and advisory related services, (ii) any dealing with the broker or dealer is executed on terms which are the most favourable for the Fund and (iii) the availability of soft commissions is not the sole or primary purpose to perform or arrange transactions with such broker or dealer, and the Manager or fund manager shall not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commissions.

10. AMENDMENTS TO SECTION 5.2: Fund Valuation and Publication of Prices

The information in relation to the “Fund Valuation and Publication of Prices” disclosed in page 23 of the Information Memorandum dated 20 March 2020 and pages 2 to 3 of the 2nd Supplementary Information Memorandum dated 27 October 2021 is hereby deleted in its entirety and substituted with the following:

The NAV per Unit is quoted on a Forward Price basis and can be obtained from the Manager’s website at www.hlam.com.my.

The valuation of the Fund is conducted on each Business Day at the close of Bursa Malaysia.
