Manager's Review and Report

I. FUND INFORMATION

Fund Name

Hong Leong Global Multi Strategies Fund ("HLGMSF" or "the Fund")

Fund Category

Mixed Assets (Fund-of-Funds/Wholesale)

Fund Type

Growth and Income

Investment Objective

The Fund aims to provide capital growth and regular income* over the medium to long-term by investing primarily in a portfolio of collective investment schemes.

Duration of the Fund and its termination date, where applicable

Not Applicable

Benchmark

MSCI All Country World Index+Bloomberg Global Aggregate Total Return Index Hedged USD (50:50)

Distribution Policy

The Fund intends to provide regular income. As such, income distribution will be declared on a monthly basis, subject to availability of income. Income distributed will be reinvested into additional Units unless Unit holders opt for the distribution to be paid out.

Note:

* Income distributed (if any) will be reinvested into additional Units unless Unit holders opt for the distribution to be paid out.

II. FUND PERFORMANCE

Chart 1: Performance of the Fund versus the benchmark since launch

Source: Lipper for Investment Management, in Malaysian Ringgit terms, ex-distribution, NAV Per Unit-to-NAV Per Unit basis with gross income (if any) from HLGMSF reinvested.

Past performance is not necessarily indicative of future performance and unit prices and investment returns may go down, as well as up.

Performance Review

This First-Quarter Report covers the three-month financial period from 1 December 2023 to 29 February 2024.

The Fund registered a return of 4.60% (based on NAV Per Unit-to-NAV Per Unit basis with gross income (if any) from the Fund reinvested) in the past three months while its benchmark the MSCI All Country World Index+ Bloomberg Global Aggregate Total Return Index Hedged USD (50:50) registered a return of 8.07% (in Malaysian Ringgit terms).

Since launch, the Fund has registered a return of 23.23% compared to the benchmark's return of 56.51% while distributing a total gross income of 10.1004 sen per unit (net income of 9.9294 sen per unit).

Key Risk Factors

The potential risks associated with investing in the Fund are including but not limited to the followings:

- Market risk;
- Fund management risk;
- Inflation/Purchasing power risk;
- Loan financing risk;
- Non-compliance risk;
- Third party managers' risk;
- Collective Investment Scheme risk;
- Counterparty risk;
- Currency risk;
- Liquidity risk;
- Country risk;
- Hedging risk; and
- Concentration risk.

III. INVESTMENT PORTFOLIO

Chart 2: Asset Allocation - December 2023 to February 2024

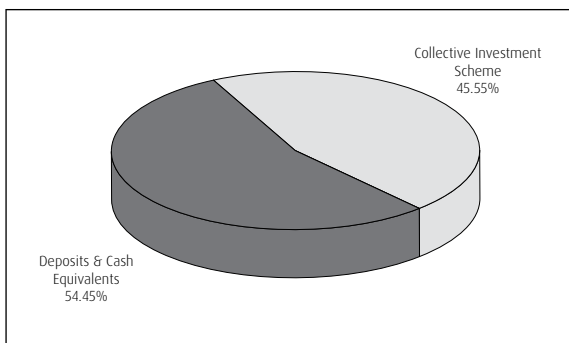

Chart 3: Sector Allocation as at 29 February 2024

Strategies employed by the Fund during the period under review

During the financial period under review, the Fund disposed part of its position in JPMorgan Asia Equity Dividend C (Mth)-USD (Hedged) to lock in the gains and looking for opportunities to reinvest into the other funds which have higher distribution yields.

An explanation on the differences in portfolio composition

During the financial period under review, we disposed our position in JPMorgan Asia Equity Dividend C (Mth)-USD (Hedged) as we think the rally in Asia Pacific markets is overdone, while we are looking for opportunities to reinvest into the other funds which have higher distribution yields.

Operational review of the Fund

For the financial period under review, there were no significant changes in the state of affairs of the Fund or circumstances that would materially affect the interest of Unit holders up to the date of this Manager's report.

IV. MARKET REVIEW

During the financial period under review, United States' (US) earnings season remained in focus, with five of the 'magnificent seven' US stocks reporting results for the previous quarter. These companies generally met or exceeded expectations, contributing to a notable gain in the S&P 500 Index during the financial period under review. With over 90% of S&P 500 Index firms having reported, nearly three-quarters have surpassed analysts' earnings forecasts. Additionally, economic data proved resilient, with the US composite Purchasing Managers' Index (PMI) indicating continued expansion in February, alongside the addition of 353,000 jobs in January.

In contrast, European stock markets underperformed, with the MSCI Europe ex-UK rising only 2.8% in February, compared to the 4.3% gain for the developed market MSCI World Index. Despite a larger-than-expected rise in the eurozone composite PMI to 48.9, indicating potential improvement, European stocks struggled to gain momentum. United Kingdom (UK) stocks also faced challenges following a disappointing fourth-quarter Gross Domestic Product (GDP) print that revealed the country had entered a technical recession in 2023. Analysts downgraded profit growth estimates for 2024 to 4.7% year-on-year based on recent earnings data from UK companies.

Chinese equity markets experienced a notable rebound, with the MSCI China Index gaining substantially during the period under review. Despite hitting 5-Year lows prior to the month, activity data over the Lunar New Year holiday period showed signs of strength. Additionally, the Chinese government announced supportive interventions, including a cut to the 5-Year Loan Prime Rate (LPR) and curbs on short selling, which boosted investor sentiment. State-owned investment firms also stepped in with stock purchases, further supporting the market.

V. FUTURE PROSPECTS AND PROPOSED STRATEGIES

Global equity markets found support in the first quarter of 2024, buoyed by the ongoing strength of the US economy and promising signs of an uptick in European activity. This economic resilience, coupled with indications that inflationary pressures have not entirely dissipated, suggests that central banks are likely to maintain their current monetary policies for the foreseeable future. In the equity space, we focus on quality companies with robust balance sheets. This cautious approach is warranted given that earnings expectations remain elevated, but uncertainties persist in the broader economic landscape.

On the strategy front, we have reduced our investment into the targeted funds to lock in the gains and we are currently looking to invest into the funds which can provide higher distribution yield.

VI. SOFT COMMISSIONS

The Manager may receive soft commissions from brokers/dealers in the form of goods and services such as research materials, data and quotation services incidental to investment management of the Fund and investment related publications. Such soft commissions received are utilised in the investment management of the Fund and are of demonstrable benefit to the Fund and Unit holders and there was no churning of trades.

During the financial period under review, the Fund has not received goods or services by way of soft commissions.

VII. SECURITIES LENDING OR REPURCHASE TRANSACTIONS

No securities lending or repurchase transactions have been carried out during the financial period under review.

VIII. CROSS TRADE TRANSACTIONS

No cross trade transactions have been carried out during the financial period under review.

STATEMENT BY THE MANAGER

I, Hoo See Kheng, as the Director of Hong Leong Asset Management Bhd, do hereby state that, in the opinion of the Manager, the accompanying unaudited condensed financial statements set out on pages 10 to 33 are drawn up in accordance with the provision of the Deed and give a true and fair view of the financial position of the Fund as at 29 February 2024 and of its financial performance, changes in equity and cash flows for the financial period from 1 December 2023 to 29 February 2024 in accordance with the Malaysian Financial Reporting Standard 134 “Interim Financial Reporting” and International Accounting Standard 34 “Interim Financial Reporting”.

For and on behalf of the Manager,
Hong Leong Asset Management Bhd
(Company No.: 199401033034 (318717-M))

HOO SEE KHENG

Chief Executive Officer/Executive Director

NOTES TO THE CONDENSED FINANCIAL STATEMENTS *(Unaudited)*

FOR THE FINANCIAL PERIOD FROM 1 DECEMBER 2023 TO 29 FEBRUARY 2024

1. THE FUND, THE MANAGER AND THEIR PRINCIPAL ACTIVITIES

Hong Leong Global Multi Strategies Fund (“the Fund”) was constituted pursuant to the execution of a Deed dated 7 February 2020 between the Hong Leong Asset Management Bhd (“the Manager”) and Deutsche Trustees Malaysia Berhad (“the Trustee”) for the unit holders of the Fund.

The Fund aims to provide capital growth and regular income over the medium to long-term by investing primarily in a portfolio of collective investment schemes.

The investment strategy of the Fund is to invest in listed and/or unlisted collective investment schemes that provide capital growth and regular income through exposure into globally focused strategies across multiples assets classes. The Fund commenced operations on 20 March 2020 and will continue its operations until terminated as provided under Part 11 of the Deed.

The Manager of the Fund is Hong Leong Asset Management Bhd, a company incorporated in Malaysia. The principal activity of the Manager is the management of unit trust funds, private retirement schemes and private investment mandates. Its holding company is Hong Leong Capital Berhad, a company incorporated in Malaysia and listed on the Main Market of Bursa Malaysia Securities Berhad.

The financial statements were authorised for issue by the Manager on 22 April 2024.

2. MATERIAL ACCOUNTING POLICY INFORMATION

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements:

(a) Basis of preparation

The condensed financial statements are unaudited and have been prepared in accordance with the Malaysian Financial Reporting Standard 134 “Interim Financial Reporting” and International Accounting Standard 34 “Interim Financial Reporting”.

The condensed financial statements should be read in conjunction with the audited financial statements of the Fund for the financial year ended 30 November 2023 which have been prepared in accordance with the provisions of the Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”).

(b) Financial assets and financial liabilities

Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income (“OCI”) or through profit or loss), and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund’s business model for managing those financial assets and the contractual cash flows characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets’ performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. The contractual cash flows of the Fund’s debt securities are solely principal and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund’s business model’s objective. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents, amount due from the Manager of collective investment scheme and dividends receivable as financial assets measured at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

The Fund classifies amount due to the Manager, amount due to the Trustee and other payables and accruals as financial liabilities measured at amortised cost.

Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date – the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value.

Financial liabilities, within the scope of MFRS 9, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Unrealised gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss including the effects of currency translation are including the effects of currency translation presented in the statement of comprehensive income within net gain or loss on financial assets at fair value through profit or loss in the year which they arise.

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of dividend income when the Fund's right to receive payments is established.

Unquoted collective investment schemes are valued at the last published net asset value per unit at the date of the statement of financial position.

Deposits with licensed financial institutions are stated at cost plus accrued interest calculated on the effective interest rate method over the period from the date of placement to the date of maturity of the respective deposits, which is a close estimate of their fair value due to the short term nature of the deposits. Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective interest rate method.

Impairment

The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. Management considers the probability of default to be closed to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of obligor's sources of income or assets to generate sufficient future cash flows to pay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial period.

(c) Foreign currency

Functional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the “functional currency”). The financial statements are presented in Ringgit Malaysia (“RM”), which is the Fund’s functional and presentation currency.

Due to mixed factors in determining the functional currency of the Fund, the Manager has used its judgment to determine the functional currency that most faithfully represents the economic effects of the underlying transactions, events and conditions and have determined the functional currency to be in RM primarily due to the following factors:

- The Fund’s NAV per unit and the settlement of creation and cancellation are denominated in RM.
- The Fund’s significant expenses are denominated in RM.

Translation and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss, except when deferred in other comprehensive income as qualifying cash flow hedges.

Translation differences on non-monetary financial assets and liabilities such as collective investment schemes held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss.

(d) Income recognition

Dividend income is recognised on the ex-dividend date when the Fund's right to receive payment is established.

Interest income from deposits with licensed financial institutions and auto-sweep facility bank account are recognised on the effective interest rate method on an accrual basis.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Realised gain or loss on disposal of unquoted investments is accounted for as the difference between the net disposal proceeds and the carrying amount of unquoted investments, determined on a weighted average cost basis.

Realised gain or loss on derivative - unquoted forward currency contract is measured by the net settlement as per the forward currency contract.

(e) Cash and cash equivalents

For the purpose of statement of cash flows, cash and cash equivalents comprise cash at banks and deposits held in highly liquid investments that are readily convertible to known amounts of cash with an original maturity of three months or lesser which are subject to an insignificant risk of changes in value.

(f) Amount due from/to brokers/dealers

Amount due from/to brokers/dealers represent receivables/payables for investments sold/purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively.

These amounts are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method, less provision for impairment for amount due from brokers/dealers. A provision for impairment of amount due from a broker/dealer is established when there is objective evidence that the Fund will not be able to collect all amounts due from the relevant broker/dealer. Significant financial difficulties of the broker/dealer, probability that the broker/dealer will enter bankruptcy or financial reorganisation, and default in payments are considered indicators that the amount due from brokers/dealers is impaired. Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

(g) Taxation

Current tax expense is determined according to Malaysian tax laws at the prevailing tax rate based on the taxable profit earned during the financial period. Withholding taxes on investment income from foreign investments are based on the tax regime of the respective countries that the Fund invests in. Such withholding taxes are not “income tax” in nature and are recognised and measured based on the requirements of MFRS 137. They are presented within other expenses line in the statement of comprehensive income.

(h) Distributions

A distribution to the Fund’s unit holders is accounted for as a deduction from realised reserve. A proposed distribution is recognised as a liability in the financial period in which it is approved by the Board of Directors of the Manager.

(i) Unit holders' capital

The unit holders' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the unit holder to a proportionate share of the Fund's net asset value;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase the units; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss and change in the net asset value of the Fund.

The outstanding units are carried at the redemption amount that is payable at the date of the statement of financial position if unit holder exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's net asset value per unit at the time of creation and cancellation. The Fund's net asset value per unit is calculated by dividing the net assets attributable to unit holders with the total number of outstanding units.

(j) Derivative

A derivative is any contract that gives rise to a financial asset/liability of the Fund and a financial liability/asset or equity instrument of another enterprise.

A financial asset is any asset that is cash, a contractual right to receive cash or another financial asset from another enterprise, a contractual right to exchange financial instruments with another enterprise under conditions that are potentially favorable, or an equity instrument of another enterprise.

A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another enterprise, or to exchange financial instruments with another enterprise under conditions that are potentially unfavorable.

The Fund's derivative comprises unquoted forward currency contract. Derivative is initially recognised at fair value on the date a derivative contract is entered into and is subsequently re-measured at their fair value.

The fair value of forward foreign currency contract is determined using forward exchange rates at the date of statements of financial position with the resulting value discounted back to present value.

The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument and the nature of the item being hedged. Derivative that do not qualify for hedge accounting are classified as held for trading and accounted for in accordance with the accounting policy set out in Note 2(b).

(k) Fair value of financial instruments

Financial instruments comprise financial assets and financial liabilities. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The information presented herein represents the estimates of fair values as at the date of the statement of financial position.

The Fund's financial assets and financial liabilities are measured on an ongoing basis at either fair value or at amortised cost based on the respective classification.

The following table analyses the financial assets and financial liabilities of the Fund in the statement of financial position as at the reporting date:

	Financial assets at FVTPL RM	Financial assets/ liabilities at amortised cost RM	Total RM
29.02.2024			
<u>Financial assets</u>			
Cash and cash equivalents (Note 8)	-	2,871,168	2,871,168
Amount due from the Manager of collective investment schemes -management fee rebates	-	5,403	5,403
Derivative (Note 9)	17,284	-	17,284
Dividends receivable	-	8,517	8,517
Financial assets at FVTPL (Note 10)	2,422,594	-	2,422,594
	<u>2,439,878</u>	<u>2,885,088</u>	<u>5,324,966</u>
<u>Financial liabilities</u>			
Amount due to the Manager -management fee	-	7,689	7,689
Amount due to the Trustee	-	171	171
Other payables and accruals	-	18,389	18,389
	<u>-</u>	<u>26,249</u>	<u>26,249</u>
30.11.2023			
<u>Financial assets</u>			
Cash and cash equivalents (Note 8)	-	177,114	177,114
Amount due from the Manager of collective investment schemes -management fee rebates	-	7,594	7,594
Dividends receivable	-	20,928	20,928
Financial assets at FVTPL (Note 10)	5,756,659	-	5,756,659
	<u>5,756,659</u>	<u>205,636</u>	<u>5,962,295</u>
<u>Financial liabilities</u>			
Amount due to the Manager -management fee	-	8,947	8,947
Amount due to the Trustee	-	8,190	8,190
Derivative (Note 9)	7,352	-	7,352
Other payables and accruals	-	14,734	14,734
	<u>7,352</u>	<u>31,871</u>	<u>39,223</u>

All liabilities except derivative are financial liabilities which are carried at amortised cost.

(I) Critical accounting estimates and judgments in applying accounting policies

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Funds' results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgments are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the Securities Commission Malaysia's Guidelines on Unlisted Capital Market Products under the Lodge and Launch Framework.

However, the Manager is of the opinion that there are no accounting policies which require significant judgment to be exercised.

3. FAIR VALUE ESTIMATION

The fair value of financial assets traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the reporting date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques. The Fund uses a variety of methods and makes assumptions that are based on market conditions existing at each period/year end date. Valuation techniques used for non-standardised financial instruments such as options, currency swaps and other over-the-counter derivatives, include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

For instruments for which there is no active market, the Fund may use internally developed models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. Valuation models are used primarily to value unlisted equity, debt securities and other debt instruments for which market were or have been inactive during the financial period. Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including model risk, liquidity risk and counter party risk.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an on-going basis.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1);
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2); and
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that requires significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy of the Fund's financial assets and liability (by class) measured at fair value:

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
29.02.2024				
<u>Financial assets at FVTPL:</u>				
- Unquoted collective investment scheme				
- foreign	- 2,422,594		-	2,422,594
- Derivative	- 17,284		-	17,284
	- 2,439,878		-	2,439,878
30.11.2023				
<u>Financial assets at FVTPL:</u>				
- Unquoted collective investment scheme				
- foreign	- 5,756,659		-	5,756,659
<u>Financial liabilities:</u>				
- Derivative	- (7,352)		-	(7,352)

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include unquoted collective investment schemes and derivative. As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. The Fund's policies on valuation of these financial assets and liability are stated in Note 2(b) and 2(j).

- (ii) The carrying values of financial assets (other than financial assets at FVTPL) and financial liabilities (other than derivative) are a reasonable approximation of their fair values due to their short term nature.

4. INTEREST INCOME FROM FINANCIAL ASSETS MEASURED AT AMORTISED COST

	01.12.2023 to 29.02.2024 RM	01.12.2022 to 28.02.2023 RM
Interest income from:		
- Deposits with licensed financial institutions	3,021	5,210
- Auto-sweep facility bank account	232	249
	3,253	5,459

5. MANAGEMENT FEE AND MANAGEMENT FEE REBATES

In accordance with Division 12.1 of the Deed, the Manager is entitled to a management fee of up to 3.00% per annum calculated daily based on the net asset value of the Fund.

For the financial period from 1 December 2023 to 29 February 2024, the management fee is recognised at a rate of 1.80% (01.12.2022 to 28.02.2023: 1.80%) per annum.

The management fee rebates relate to the rebates received from the Manager for investing in unquoted collective investment schemes. The average rates of rebates were calculated on the net asset value of respective unquoted collective investment schemes on a daily basis as follow:

	01.12.2023 to 29.02.2024	01.12.2022 to 28.02.2023
	%	%
Unquoted collective investment schemes:		
- JPMorgan Asia Equity Dividend C (mth) - USD	0.75	0.75
- JPMorgan Investment Funds - Global Dividend A (mth) - USD (hedged)	-	1.50

There is no further liability to the Manager in respect of management fee other than the amount recognised above.

6. TRUSTEE'S FEE

In accordance with Division 12.2 of the Deed, the Trustee is entitled to a fee not exceeding 0.04% per annum subject to a minimum of RM12,000 per annum (excluding custodian fees and charges) calculated daily based on the net asset value of the Fund.

For the financial period from 1 December 2023 to 29 February 2024, the Trustee's fee is recognised at a rate of 0.04% (01.12.2022 to 28.02.2023: 0.04%) per annum.

There is no further liability to the Trustee in respect of Trustee's fee other than the amount recognised above.

7. TAXATION

	01.12.2023 to 29.02.2024	01.12.2022 to 28.02.2023
	RM	RM
Tax charge for the financial period:		
Current taxation	13,435	30,815

The numerical reconciliation between profit before taxation multiplied by the Malaysian statutory income tax rate and tax expense of the Fund is as follows:

	01.12.2023 to 29.02.2024	01.12.2022 to 28.02.2023
	RM	RM
Profit before taxation	266,771	469,543
Taxation at Malaysian statutory rate of 24% (01.12.2022 to 28.02.2023: 24%)	64,025	112,690
Tax effects of:		
Investment income not subject to tax	(55,777)	(91,311)
Expenses not deductible for tax purposes	412	542
Restriction on tax deductible expenses for wholesale fund	4,775	8,894
Taxation	13,435	30,815

8. CASH AND CASH EQUIVALENTS

	29.02.2024	30.11.2023
	RM	RM
Deposits with licensed financial institutions	1,500,123	145,012
Cash at banks	1,371,045	32,102
	2,871,168	177,114

The weighted average effective interest rates per annum are as follows:

	29.02.2024	30.11.2023
	%	%
Deposits with licensed financial institutions	3.00	3.00

Deposits with licensed financial institutions have an average remaining maturity of 1 day (2023: 1 day).

9. DERIVATIVE

Derivative comprises forward currency contract. The positive/(negative) fair value represents the unrealised gain/(loss) on the revaluation of forward currency at the reporting date. The contract or underlying principal amount of the forward currency contract and the corresponding gross positive/(negative) fair value at the end of each reporting date is analysed below:

	29.02.2024 RM	30.11.2023 RM
<u>Derivative asset:</u>		
Forward currency contract	17,284	-
<u>Derivative liability:</u>		
Forward currency contract	-	(7,352)
<hr/>		
	01.12.2023 to 29.02.2024 RM	01.12.2023 to 28.02.2023 RM
<u>Net loss on derivative:</u>		
Realised (loss)/gain on disposals	(79,333)	246,599
Changes in unrealised fair values	24,636	(275,105)
	<u>(54,697)</u>	<u>(28,506)</u>

	Maturity date	Contract or underlying principal amounts	*Fair value RM
29.02.2024			
United States Dollar	within 1 month	501,000	<u>17,284</u>
30.11.2023			
United States Dollar	within 1 month	507,000	<u>(7,352)</u>

* Being the difference between the contract price and the market forward price discounted at appropriate discount rates.

	Receivables RM	Payables RM	Fair value RM	Percentage of net asset value %
29.02.2024				
Hong Leong Investment Bank Berhad	17,284	-	17,284	0.32
30.11.2023				
Hong Leong Investment Bank Berhad	-	(7,352)	(7,352)	0.13

As the Fund does not adopt hedge accounting during the financial period, the change in the fair value of the forward currency contract is recognised immediately in the statement of comprehensive income.

10. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS ("FVTPL")

	29.02.2024 RM	30.11.2023 RM
<u>Financial assets at FVTPL:</u>		
Unquoted collective investment schemes		
- foreign	2,422,594	5,756,659
	01.12.2023 to 29.02.2024 RM	01.12.2022 to 28.02.2023 RM
<u>Net gain on financial assets at FVTPL:</u>		
Realised gain/(loss) on disposals	99,460	(171,294)
Changes in unrealised fair values	191,808	568,671
Management fee rebates	8,938	29,983
	300,206	427,360

Financial assets at FVTPL as at 29 February 2024 are as detailed below:

	Quantity Units	Aggregate cost RM	Fair value RM	Percentage of net asset value %
UNQUOTED COLLECTIVE INVESTMENT SCHEME - FOREIGN				
JPMorgan Asia Equity Dividend C (mth) - USD	52,690	2,351,636	2,422,594	45.55
TOTAL UNQUOTED COLLECTIVE INVESTMENT SCHEME - FOREIGN	52,690	2,351,636	2,422,594	45.55
UNREALISED GAIN ON FINANCIAL ASSETS AT FVTPL		70,958		
TOTAL FAIR VALUE OF FINANCIAL ASSETS AT FVTPL		2,422,594		

Financial assets at FVTPL as at 30 November 2023 are as detailed below:

	Quantity Units	Aggregate cost RM	Fair value RM	Percentage of net asset value %
UNQUOTED COLLECTIVE INVESTMENT SCHEME - FOREIGN				
JPMorgan Asia Equity Dividend C (mth) - USD	131,690	5,877,509	5,756,659	97.04
TOTAL UNQUOTED COLLECTIVE INVESTMENT SCHEME - FOREIGN	131,690	5,877,509	5,756,659	97.04
UNREALISED LOSS ON FINANCIAL ASSETS AT FVTPL		(120,850)		
TOTAL FAIR VALUE OF FINANCIAL ASSETS AT FVTPL		5,756,659		

11. UNITS IN CIRCULATION

	01.12.2023 to 29.02.2024 No. of units	01.12.2022 to 30.11.2023 No. of units
At the beginning of the financial period/year	5,527,490	16,035,019
Add: Creation of units arising from applications during the financial period/year	8,939	232,269
Less: Cancellation of units during the financial period/year	(798,519)	(10,739,798)
At the end of the financial period/year	<u>4,737,910</u>	<u>5,527,490</u>

12. UNITS HELD BY THE MANAGER AND RELATED PARTIES TRANSACTIONS AND BALANCES

The related parties and their relationships with the Fund are as follows:

<u>Related parties</u>	<u>Relationships</u>
Hong Leong Asset Management Bhd	The Manager
Hong Leong Islamic Asset Management Sdn Bhd	Subsidiary of the Manager
Hong Leong Capital Berhad	Holding company of the Manager
Hong Leong Financial Group Berhad ("HLFG")	Ultimate holding company of the Manager
Subsidiaries and associates of HLFG as disclosed in its financial statements	Subsidiaries and associate companies of the ultimate holding company of the Manager

No units were held by the Manager and parties related to the Manager as at 29 February 2024 and 30 November 2023.

In addition to related party disclosures mentioned elsewhere in the financial statements, set out below are other related party transactions and balances. The Manager is of the opinion that all transactions with the related companies have been entered into at agreed terms between the related parties.
